

How to Link Videos to Club Web Site

Go to: <http://youtube.com/>

Sign Up by clicking the link on the top menu and follow the steps to create your own account. When logged in the Sign Up link will change to a personal greeting to the username.

If you already have an account and are not logged in click the Log In link

Once you are logged in you can click the Upload button to begin.

Note: Before you can start uploading videos on YouTube you need to have your video available on your computer as a digital file. YouTube accepts video files from most digital cameras and camcorders, and cell phones in the .AVI, .MOV, .WMV, and .MPG file formats. In addition to digital cameras and camcorders you can also use hardware and software components connected to your computer to import videos from tape based cameras.

About uploading...

Uploads usually take 1-5 minutes per MB on a high-speed connection, and converting your video takes a few minutes.

Your video is limited to 10 minutes and 100 MB*.

* videos larger than 100 MB are possible to upload but you will need to use an alternative upload utility.

Video Upload (Step 1 of 2)

Fill in all fields containing an *

Title:*

Description:*

Video Category:*

Tags:* Tags are keywords used to help people find your video. (space separated)

(* indicates required field)

Click choose options links to expand sections for more options

Keep Broadcast Options as public otherwise they can not be integrated in to the club web site.

Date and Map Options may be a fun section to fill out to record the video date (regardless of upload or creation date) and identify the location the video was taken at.

Under Sharing Options you must keep the Embedding option as Yes, external sites may embed and play this video – otherwise they can not be integrated in to the club web site.

Broadcast Options: Public by default [choose options](#)

Date and Map Options: No date or location has been set [choose options](#)

Sharing Options: Allow Comments, Video Responses, Ratings, Embedding by default [choose options](#)

Or

Click the Upload a video button

All other options are optional.

Video Upload (Step 2 of 2)

Click the Browse button and select the video you intend to upload from the place it is stored. And then click Upload Video.

If your file is larger than 100 MB click on the Click here link to use an alternate uploader to upload your video.

Upload Video

An upload progress bar will work its way across the screen with percent complete on the right.

Go to My Videos

When the video upload is complete click on Go to My Videos button to go to your video list and assign the new video to a play list (see how to create a playlist later in this guide)

My Account / Videos

Newly loaded videos won't yet have a shot of the video action as its icon.

To add a video to a playlist check the box next to the video icon.

Use the Copy Videos To drop down box to select a playlist. (individual videos can be assigned to multiple playlists and will still be available in the over all My Videos list)

You must create a playlist and email the playlist ID to the clubs website administrator (david.rice@belviderebandits.com) along with the name of the wrestler the playlist is required for getting the videos integrated into the club website.

To get the playlist ID click on the desired playlist on the left hand menu.

Then copy all the data in the URL box at the top right.

Note: You can only provide one playlist ID per wrestler, per year. After you have submitted an ID you can upload as many videos as you want to that playlist and they will automatically become accessible on the club website. The club also reserves the right to remove playlist IDs that do not contain videos consistent with the image of the club.

To create a playlist click the personal greeting in the menu at the top of the page

Choose the Playlists link

Choose the Edit Playlists button

On the next page click the Create Playlist button (bottom left menu)

Fill in the form it is recommended to create a separate playlist per wrestler, per season. Make the playlist name descriptive to you so you know where to direct your future uploads.

Keep the Playlist as public and check the Allow external sites to embed this playlist box.

Click the Save Playlist Info button
